#### **Directors' Review**

The directors are pleased to present the financial information for the first quarter ended March 31, 2020.

Sales grew by 17.2% on the back of strong brand equity, wider reach and effective spending on advertisement and promotion. Gross Margin declined by 2.64% to 40.8% due to difficult operating environment. Earnings per share (EPS) increased by 48.4% versus the same period last year.

Financial Highlights		quarter ⁄/arch 31,

#### **Future Outlook**

The rapid spread of COVID -19 has caused severe disruption to the global socio-economic environment & Pakistan was no exception. Towards the end of the last quarter, the GoP ordered a strict lock down which adversely impacted the industrial & commercial activities with ensuing hardship on the general public. As a responsible corporate citizen, your company contributed to the well-being of all the stake holders, while complying with the successive directives of the Federal & Provincial Governments. Despite the abnormal conditions, your company performance in the last quarter was very encouraging. At this point in time, it is difficult to forecast as to how long the pandemic will last & when normalcy will return domestically as well as internationally. Your company is cognizant of the challenges but will strive to continue to deliver creditable results, for the benefit of all the stake holders, based on its inherent strengths. These are - access to global expertise, superior consumer understanding, continuous innovations & world class customer service.

Thanking you all.

On behalf of the Board

Amir R. Paracha Chief Executive Officer
