Directors' Review

The directors are pleased to present the financial information for the nine months ended September 30, 2021.

Sales grew by 27.9% on the back of strong fundamentals i.e brand equity, wider reach and effective spending on advertisement and promotion. The growth was broad based with both retail business and Food Solutions delivering strong results as a result of easing lockdowns. Gross Margin increased by 1.23% to 43.69% versus same period last year, through a combination of pricing, better cost absorption and a rigorous savings agenda. Earnings per share (EPS) increased by 44.9% versus the same period last year driven by growth, margin improvement and tax credits pertaining to capital expenditure.

Future Outlook

Earnings per Share (Rs.)

Pakistan's economy has shown resilience in the face of global COVID -19 pandemic, witnessing GDP growth of 3.94% in fiscal year 2021 as a result of timely monetary and fiscal measures. This was supported by a nation-wide vaccination drive which has, so far, played an important role in successfully fighting COVID. With restrictions easing out further, commercial activity is expected to return to pre-covid levels. However, rising global commodity prices and energy costs coupled with sharp rupee devaluation is expected to further aggravate the inflationary headwinds which in turn, may have significant implications on the economic activity in the country.

In such challenging times, the management remains committed to navigate by leveraging the power of our brands and our global and local expertise to drive efficiencies within the value chain. We will continue our efforts on providing value to our consumers to meet their daily needs and on delivering competitive, consistent, responsible, and profitable growth benefitting all stakeholders.

Thanking you all.

NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED) FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2021

1. BASIS OF PREPARATION

1.1 Statement of Compliance

These condensed interim financial statements of Unilever Pakistan Foods Limited ("the Company") for the nine months ended September 30, 2021 have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and provisions of and directives issued under the Companies Act, 2017. Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the financial statements of the Company for the year ended December 31, 2020. However, selected explanatory notes are included to explain events and transactions that are significant to understanding of changes in Company's financial position and performance since the last financial statements.

1.3 Basis of Measurement

These condensed interim financial statements have been prepared under the historical cost convention except as disclosed elsewhere.

1.4 Functional and Presentation Currency

These condensed interim financial statements are presented in Pakistani Rupees which is the functional currency of the Company and figures are rounded off to the nearest thousand of Rupees.

1.5 COVID-19

A novel strain of coronavirus (COVID-19) first surfaced in China and due to the nature of its virality, it quickly found its way to other countries due to which the World Health Organization classified it as a pandemic on the 11th of March in 2020. Measures have been taken to contain the spread of the virus including travel bans, quarantines, social distancing and closure of nonessential services and factories, hence triggering disruptions in businesses and allowing for a slowdown in the economy worldwide. After a gruesome few months of strict lockdown in Pakistan, the lockdown has been eased, after critical assessment of active cases, since the third quarter of 2021. Offices, restaurants, recreational areas & academic institutions have reopened with strict safety & protective guidelines for the public to follow including social distancing, mandatory face masks and sanitization protocols. The beginning of 2021 has restored hope with the introduction of vaccine drives coupled with the necessary protection me asures being followed since the past year which have led to avoidance of lockdowns. After observing the demand from the Company's customers, the availability of imports and the support by the Government, the management, upon assessment, believes that (COVID-19) has not had a significant impact on the Company.

2. ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the financial statements for the year ended December 31, 2020 other than that disclosed below.

2.1 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of "government" refers to governments, government agencies and similar bodies, whether local, national or international. The Company recognizes government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants. Government grants are recognized at fair

NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED) FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2021

value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants. Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

3 ACCOUNTING ESTIMATES, JUDGEMENTS AND FINANCIAL RISK MANAGEMENT

The accounting policies and the methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the annual audited financial statements for the year ended December 31, 2020. The preparation of these condensed interim financial statements, in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. Actual results may differ from the estimates. During the preparation of these condensed interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation and assumptions are consistent with those that were applied to the annual audited financial statements of the Company for the year ended December 31, 2020.

The Company's financial risk management objectives and policies are consistent with those disclosed in the annual audited financial statements for the year ended December 31, 2020.

	Deferred income - government grant	5.2	31,510	-
		-	198.028	23.660

- 5.1 During the year 2020, the Company entered into a long term borrowing arrangement with a commercial bank for installation of solar panels under State Bank of Pakistan's Refinancing Scheme for Renewable energy. The total facility is available for twelve years ending in 2032 and amounts to Rs. 149 million. The loan carries mark-up at the rate of 3.65% per annum.
- During the period, the Company has also entered into a long term borrowing arrangement with commercial banks under State Bank of Pakistan's Temporary Economic Refinance Facility amounting to Rs. 900 million. This loan carries a concessional mark-up rate of 2.3% and is repayable in 32 quarterly installments with a 2 year grace period commencing from first disbursement. The scheme qualifies for the recognition criteria of a Government Grant as per IAS 20 Accounting for Government Grants and Disclosure of Government Assistance. As a result, the liability has been broken down into two components. First one being recognition of a financial liability in accordance with IFRS 9 Financial Instruments which has been measured at Fair Value, that is, present value of future cashflows at the prevailing market rate amounting to Rs. 76.67 million. Second component is the recognition of deferred income as a long term liability amounting to Rs. 31.50 million. This is the difference between the fair value of the financing f acility and loan proceeds received from the bank.

6.1 This represents provision recognized against infrastructure fee levied by the Government of Sindh vide section 9 of the Sindh Finance Act on the goods entering or leaving the province from or for outside the country for services rendered in respect of development and maintenance of infrastructure. Levy is applicable on imported goods and it is charged at the time of custom clearance. Group of importers challenged the levy on the grounds that imposing levy on 'import and export' does not fall within legislative competence of the provincial legislature. In 2011, Sindh High Court (SHC) through its interim order granted an interim relief to all the petitioners directing that the future imports of the petitioners will be cleared on payment of 50% of the disputed cess while for remaining 50% bank guarantee is to be submitted till the final decision by Court. Similarly, the same being practiced by the management. Movement in the balances represents charge for the period.

7. CONTINGENCIES AND COMMITMENTS

7.1 Contingencies

There were no contingencies as on September 30, 2021.

7.2 Commitments

The commitments for capital expenditure outstanding as at September 30, 2021 amounted to Rs. 1,066 million (December 31, 2020: Rs. 295.51 million).
